

Alexandra Lorigan | Manager

Alexandra is an experienced evaluator and project manager, who is trusted by clients because of her excellent attention to detail, and commitment to using management processes that ensure projects are delivered on time, and to a high standard. Her passion is making evaluation safe, accessible, and engaging so people with lived and/or living experience feel comfortable to contribute their voices as co-evaluators or evaluation participants. She believes that by building evaluation capacity through her projects, her clients will be able to continue monitoring and evaluating their programs to make them the best they can be for the people they support.

My favourite part about doing this work is involving people with lived and/or living experience. Their passion and commitment bring so much value to our work, whether by ensuring our processes are accessible and inclusive, or by supporting us to interpret data and unearth insights that we otherwise wouldn't have.
