EDUCATION
Bachelor of Economics, USYD (Commenced 2019)

THAHER GAIYASUDEEN
ANALYST

Thaher is in his second year studying economics at the University of Sydney. He enjoys utilising quantitative methods to evaluate government and not-for-profit policies and programs. Since joining ARTD he has supported projects across the housing and homelessness, mental health and wellbeing, environment and natural resources and education and youth development sectors.

RESEARCH AND REVIEW

>> **Midnight Basketball Impact Evaluation** (Midnight Basketball Australia Ltd, in progress): Assisted with reviewing 100 policy documents and scientific literature and contributing to a literature review.

>> **Illegal Kerbside Dumping Trials** (Environment Protection Authority, 2020): Transcribed interviews with staff from councils across New South Wales involved in the design and implementation of the illegal trial programs.

>> **Community Litter Grants Program Evaluation** (Environment Protection Authority, 2019): Helped with conducting interviews with key stakeholders and note taking.

DATA COLLECTION AND ANALYSIS

>> **Australian Trusted Trader Program** (Department of Home Affairs, 2015–20): Merged and cleaned data from multiple surveys to create a single excel dataset and assisted with data analysis. Also created a coding framework and conducted thematic analysis on long form qualitative survey responses.

>> **Future Directions in Social Housing: Service Improvement initiatives** (Department of Family and Community Services, in progress): Developed time series graphs in Tableau tracking several measures across six different New South Wales locations which have Place Plans.

>> **Wellways Services Evaluation** (Wellways Australia, in progress): Analysed client excel data in SPSS to identify changes in in score in two mental health measures (Basis32 and Recovery Star).

>> **RDA Stakeholder Survey** (Department of Infrastructure, Transport, Regional Development and Communications, 2019-20): Cleaned and prepared stakeholder survey data using excel and SPSS for analysis and reporting.

>> **Australian Trusted Trader Program Stage 5 Evaluation** (Department of Home Affairs, 2019–20): Merged and cleaned data from multiple surveys to create a single excel dataset and assisted with data analysis. Also created a coding framework and conducted thematic analysis on long form qualitative survey responses.

>> **Questacon National Presence Strategy Evaluation** (Questacon, 2019): Constructed a dataset from data collected by multiple surveys and assisted with factor analysis of survey questions.
