## ELIZABETH LULAND

### SENIOR CONSULTANT

Elizabeth is a very proud Woddi Woddi/ Walbunja Aboriginal woman from the South Coast of NSW, who is community driven for better outcomes for not only her own community but all communities.

Elizabeth bring strong skills in community and stakeholder consultation. She consults sensitively and effectively with Aboriginal and Torres Strait Islander peoples, by showing empathy and respect when engaging with stakeholders in challenging situations and when discussing sensitive matters.

Elizabeth joined ARTD in 2022, bringing strong research and community consultation skills from her work in Universities and the Aboriginal Community Controlled Organisation sector. Having previously worked at the Aboriginal Health And Medical Research Council of NSW, Elizabeth also brings a deep knowledge of research ethics and the development of ethical consultation protocols.

Elizabeth is currently undertaking qualitative data collection at ARTD for the **Evaluation of the Indigenous Girls STEM Academy (NIAA)**. In her previous role at Ninti One, Elizabeth undertook qualitative and quantitative research and analysis for this joint ARTD - Ninti One project through desktop research and focus groups, interviews and surveys.

Elizabeth's other work on recent projects in roles prior to joining ARTD are outlined below.

- » **Community Survey on Feral/Community Cats (Ninti One for Territory NRM):** conducted qualitative and quantitative research and analysis through survey, engaged with Aboriginal and Torres Strait Islander communities and stakeholders in a strengths based, culturally safe way that acknowledged local expertise and diversity across communities and participants.
- » **Narratives of Recovery – Practices Supporting Community Wellness and Resilience Post-Bushfires and COVID-19 (University of Wollongong):** managed and provided operational support for this project, with involvement at each stage from planning and ethics applications, to supporting co-design, data collection, stakeholder and community engagement, report writing and translating research outcomes to accessible communications for public and communities.
- » **Minga Goodjaga Mums and Bubs Program (Waminda South Coast Women's Health and Welfare Aboriginal Corporation):** provided project and data administration, community, health provider and stakeholder consultation, and developed ethics and research protocols.
